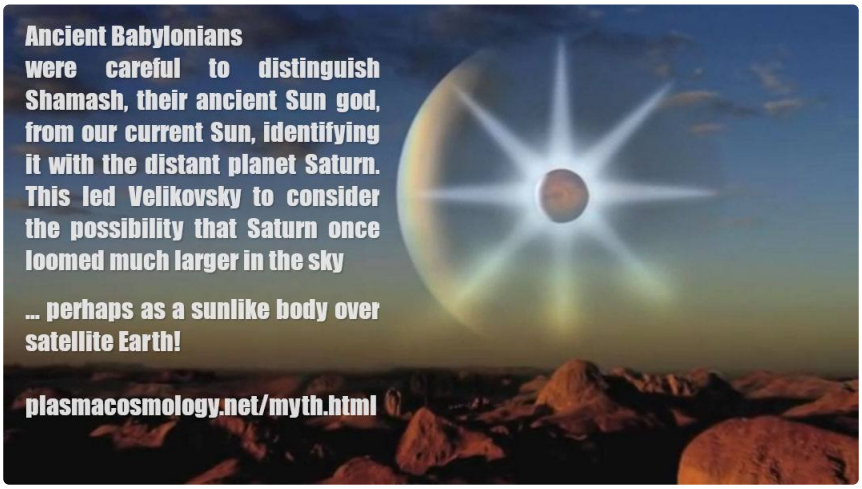
Introduction

This is evidence of a world-empire. The Rus-Horde 'Tartarian' Empire ruled over all continents between 12th and 18th centuries before its breakup in 1775.

Questioning the 'official' timeline of Earth's history is not a new phenomenon.
Since the 16th century historian critics like
Jean Hardouin,
Robert Baldauf,
Edwin Johnson,
Wilhelm Kammeyer,
Heribert Illig, and
Immanuel Velikovsky
have accused church chronologists of the Holy Roman Empire
such as Joseph Scaliger
(founder of modern chronology)
of conspiring to obfuscate historical records before the 13th century C.E. In modern times, state-sponsored historians
like Anatoly Fomenko
have used statistical analysis of published records
from 2200
sources including Scaliger,
House of Romanov,
The Bible
& OT Apocrypha,
Quran,
Book of Mormon,

Maya-Kiche,
etc.
His team revealed **duplicated** matching chronology spanning periods of hundreds or thousands of years, often with the
names and locations changed. In his New Chronology,
modern human history started less than a thousand years ago:

> ***Christ*** *was born in The Crimea on*
> *December 25th, 1152 A.D. and was crucified on Joshua's Hill in* ***Constantinople/Istanbul****.*
> *The Trojan War and the Crusades were waged in revenge of the Crucifixion and were*
> *in reality the same historical event.*
> *Genghis Khan and the Mongols were actually Russians.*
> *The lands west of the 13 colonies that now constitute the American West and Middle West*
> *were a far eastern part of Siberian-American (Rus-Horde)*
> *Empire prior to its disintegration in 1775.*



Earth may have been a satellite of planet Saturn in primordial times

In 1952, Immanuel Velikovsky posited that 'ancient' history was
also in need of a major revision. He used
comparative mythology and ancient literary sources
(especially the Old Testament) to argue that Earth suffered catastrophic close contacts with other planets
(Saturn, Jupiter, Mercury, and especially Venus and Mars) in our past. In 1997,
Wal Thornhill presented the
Electric Universe
theory which provided a new foundation in interplanetary physics that neatly explained why these cataclysms

occurred

in the past. In Saturnian Cosmology, Earth’s recorded history is **less than 4 thousand years** since the start of the Golden Age.

 latin alphabet-and elevated to the position of <strong>Son of God</strong>. Historians give Johannes Gutenberg credit for the
 invention of the printing press in 1454, although it was already in use by the Rus-Horde Empire for at least two
 centuries prior. Historians also attribute the translation of the Vulgate Latin Bible to St. Jerome in the <em>4th</em>
 century, however Fomenko demonstrates this to be a duplicate of the same event shifted backwards by 1053 years.</p></article> <article class="article" style="page-break-before:always"><p class="section-label">09.050</p><h1>Deep State Steals Russian History</h1> <p>On the Deep State’s instructions religious clerics of Europe, after spending 200 years resisting Eastern Christianity,
 suddenly would claim it for their own, changing the names, locations, and dates of the Eastern Cyrillic Bible into a
 Western Latin version refashioning the stories with Western values. The Deep State saw this new tactic as a solution to
 the failure of the Crusades in Europe. The Armies of the Rus-Horde Empire, operating at the behest of the Czar, had
 no moral reason to conquer others and were easily demoralized. In contrast, the new Western Crusaders would eventually
